

## CIVIL ENGINEER

### Bend, Oregon

AKS Engineering & Forestry (AKS) has an immediate opening for a Civil Engineer in our Bend, Oregon office. You will work closely with our senior project managers and multidisciplinary task leads on a mix of public works and private site development projects throughout Central Oregon. AKS offers a supportive work environment with an excellent benefit package and an outstanding opportunity for personal and professional growth.

If you are looking to join a well-respected and talented team of professionals in a dynamic organization that is poised for growth, then you'll want to consider AKS.

#### **Ideal Candidate:**

- 5+ years of design experience
- BS in Civil Engineering or equivalent (required)
- Oregon Civil Engineer's license (ability to obtain within 6 months required)
- Self-motivated, proactive, and detail-oriented
- Proficient with AutoCAD Civil 3D
- Effective written and oral communication
- Ability to work quickly, manage multiple and conflicting deadlines, and establish priorities
- Proficient with Microsoft Office Suite
- Comfortable networking with clients and colleagues to develop and maintain professional relationships
- Personal responsibility for completing quality work within budgets and timelines
- Possess solid time management, and follow-through skills
- Proven ability to work as part of a multi-disciplinary team.

**Job Functions & Responsibilities:** The focus of this full-time position is to lead the design engineering for residential, industrial, commercial, education, recreational, or public works projects.

Working with a Project Manager, the following tasks will be assigned:

- Perform AutoCAD design and drafting requirements in support of civil engineering design process
- Coordinate with other in-house disciplines, as well as outside subconsultants
- Work with engineering staff to develop plans, specifications, and reports and stamp final documents
- Provide thorough on-going QA/QC review of deliverables
- Perform site and infrastructure design per county/city standards and maintain good communication with the planning/engineering staff of the jurisdiction to minimize future changes and misunderstandings
- Conduct and coordinate periodic site visits to construction sites to monitor quality and work progress
- Prepare and manage project correspondence and documentation
- Tabulate bid items and calculate construction bid quantities from plans and specifications. Develop cost estimates.
- Network with clients, agency personnel, and colleagues to build/maintain professional network
- Maintain relationships with clients to develop future opportunities

#### **About AKS:**

AKS is an infrastructure engineering firm that serves a combination of public and private clients in the Pacific Northwest. Our company provides a unique combination of services including civil engineering, surveying, planning, landscape architecture, arboriculture, natural resources, and forestry. We have an established, broad-based portfolio of clients including land owners, real-estate developers, architects, government agencies, public service providers, timberland owners, and others. With four offices and over 20 years in
